

## MAC Hot Air Units

### **Commercial Air Heaters ...Proven Durability, Outstanding Performance**

Commercial Air Heaters Are designed to heat working areas, structures and equipment. effectively and economically with forced air heat in extreme cold conditions. They can also be used in conjunction systems.

Heaters are self-contained, portable, and provide in independent heat source for spot-heating machinery, equipment, frozen pipelines, pumping plants, and crop sites. Customers for air heaters are Primarily the following:

Energy Exploration Companies, The Construction Industry, The Aviation Industry

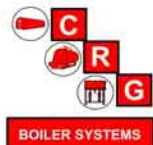

## Models and Specifications

Model	210	750	1.2M	2.5M	4.2M
Burner Set BTU/HR	210,000	750,000	1,200,000	2,500,000	4,400,000
Fuel Rate GPH	1.5	5.4	8.6	17.6	30
Low Fire GPH	-	-	4.3	8.8	15
Temp. Rise Deg. F	120	251	215	215	215
Output Air Vol. CFM @ 3" SP	1,450	3,700	6,500	12,300	21,500
Power	120V/60HZ	SelfPwr Diesel/Gen	230/460/3PH	230/460/3PH	230/460/3PH
Length	108"	176"	175"	240"	270"
Width	41"	76"	64"	96"	102"
Height	54"	73"	80"	90"	96"
Weight Lb.	350	2,800	3,900	7,100	11,000

**Note: The above specifications are basic unit values subject to change to Meet buyer requirements for performance and options.**

<b>Type</b>	Indirect fire (no combustion gases in heated air)
<b>Construction</b>	Totally enclosed, welded steel. "210" & "750" are trailer mounted, skid or Trailer option for others. Fuel capacity, electrical, ect., subject to buyer request.
<b>Heat Exchanger</b>	Stainless steel.
<b>Fan</b>	Backward inclined blade centri fugal.
<b>Controls</b>	Standard burner purge/safety system incorporated with heater over Temperature and air flow sensing. Thermostat options available.
<b>Fuel</b>	F 1,2,A. Propane, Natural Gas.
<b>Burner</b>	Riello solid state standard, others optional.
<b>Diesel/Gen</b>	Elliot Power Systems 20kw liquid cooled Isuzu diesel set with Ls 2000 Generator

**Options: Will be built to buyer's specification and options.**
